

DVSpeaker Dataset Release Agreement

Introduction

The DVSpeaker dataset is intended to support research and educational efforts in event-based lip-motion analysis, visual speaker recognition, and related biometric or computer vision tasks. The dataset is collected and distributed by the Chinese University of Hong Kong, Shen Zhen (the "Provider"). The Provider retains copyright and all other rights in the dataset, associated annotations, and documentation, except where otherwise stated.

Release of the Dataset

Access to the DVSpeaker dataset is granted only to qualified requestors after this Agreement is signed and submitted to the contact email published on the DVSpeaker GitHub. The Provider may review each request on a case-by-case basis and may deny access if the request does not comply with this Agreement.

The dataset may be distributed as downloadable archives or by other means determined by the Provider. Any access credentials, links, or instructions provided by the Provider are confidential and may not be shared.

Consent

By signing this Agreement, the researcher(s) and affiliated organization (the "Requestor") agree to the following terms and restrictions regarding the use of the DVSpeaker dataset:

1. Redistribution: The DVSpeaker dataset, in whole or in part, shall not be redistributed, shared, published, copied, sublicensed, or otherwise disseminated to any third party without prior written approval from the Provider. This includes sharing with other departments, laboratories, institutions, companies, or individuals not explicitly covered by the approved request.

2. Use Scope (Research and Education Only): The DVSpeaker dataset may be used only for non-commercial research and educational purposes. Any commercial use, service deployment, product development, paid consulting, or use for revenue-generating activities is prohibited without prior written permission from the Provider.

3. Modification and Derivative Data: Requestor may preprocess the DVSpeaker dataset (e.g., cropping, normalization, format conversion, feature extraction) solely for internal research use. However, the original dataset, reconstructed media, or derivative data that enables recovery or re-identification of the original samples shall not be publicly released without prior written approval from the Provider.

4. Access Requests: Requestor asking for the DVSpeaker dataset must submit a signed copy of this Agreement to the contact email listed on the DVSpeaker GitHub. Access may be granted only after verification by the Provider.

5. Data Security and Access Control: Requestor shall store the DVSpeaker dataset in a secure environment and limit access to authorized personnel within the approved research group. Requestor shall take reasonable measures to prevent unauthorized copying, leakage, or misuse of the dataset.

6. Human Subjects / Ethical Use: Requestor agrees to use the DVSpeaker dataset in a lawful and ethical manner and to avoid any use that may cause harm, embarrassment, unfair profiling, or mental distress to the participants. The dataset shall not be used to attempt to identify, contact, or track any participant in the real world.

7. Publication and Media Usage: If more than 5 still frames, event visualizations, or any video/event clip derived from the DVSpeaker dataset are to be included in a paper, thesis, presentation, website, or other public release, Requestor must mask or blur the details of participant. Any displayed samples should avoid revealing unnecessary personal information and should be presented respectfully.

8. Citation / Acknowledgment: All publications, reports, theses, or presentations that use the DVSpeaker dataset must cite the DVSpeaker paper and/or DVSpeaker GitHub specified by the Provider. A placeholder citation may be replaced after official release.

9. No Warranty: The DVSpeaker dataset is provided "as is" without warranties of any kind, express or implied, including but not limited to warranties of accuracy, completeness, fitness for a particular purpose, or non-infringement.

10. Indemnification: Requestor and affiliated organization agree to indemnify, defend, and hold harmless the Provider and its institutions, officers, employees, and agents from any claims, damages, losses, liabilities, or expenses arising from or related to Requestor's use of the DVSpeaker dataset, except to the extent prohibited by applicable law.

11. Termination: The Provider may terminate access to the DVSpeaker dataset at any time if the Requestor breaches this Agreement. Upon notice of termination, the Requestor shall stop using the dataset and delete all copies in their possession, except where retention is required by law or institutional policy.

Requestor Information (Please type; do not handwrite if possible)

Legal Representative (e.g., supervisor / PI, if requestor is a student)	
Point of Contact (student / coordinator, if any)	
Organization / University / Company	
Department / Laboratory	
Position / Title	
Email Address of Legal Representative (free email domains are not accepted)	
Official Homepage (legal representative / lab / department, if any)	
Intended Research Purpose / Project Title	

By signing below, I request access to the DVSpeaker dataset and confirm that I have the authority to accept the terms of this Agreement on behalf of myself and, where applicable, my organization.

Signature of Legal Representative	Signature of Point of Contact (if any)	Date

Submission Instructions

Please sign this Agreement and send a scanned PDF copy to the DVSpeaker contact email published on the DVSpeaker GitHub.
